COURSEWORK

UNDERGRADUATE

Algorithms
Operating Systems
Data Structures
Computer Networks
Probability and Statistics

SKILLS

PROGRAMMING LANGUAGES:

•Python •Java
•JavaScript •R Language

LIBRARIES / FRAMEWORKS:

•ReactJS •Tailwind CSS
•MongoDB •Node JS
•Flask •Django

TOOLS:

•SQL •Github
•Canva •Figma

EXPERIENCE

KAVACH: Hackathon

April 2023 | Flutter, Sensor Plugins

Developed a cutting-edge mobile application focused on women's safety, featuring an intuitive SOS functionality for prompt emergency response. Led the end-to-end development of a women's safety app, creating a seamless user experience and implementing an SOS feature to ensure swift assistance during critical situations.

A Social Service Website: MealMatters

Sept 2023-Oct 2023| HTML, Tailwind CSS, JavaScript

Engineered a social service website with HTML, CSS, and JavaScript, connecting users to surplus meals to combat food waste. Developed a responsive platform facilitating meal redistribution, fostering community sustainability using HTML, CSS, and JavaScript.

PROJECTS

MYNTRA CLONE | DEVELOPER

Jan 2024 - Now | React, NodeJS

Creating a Myntra clone with React for the frontend and Node.js for the backend enables seamless user experiences, combining React's dynamic interface with Node.js robust server capabilities for a feature-rich online shopping platform.

TODO LIST | LEAD DEVELOPER

Dec 2023 - | React

Efficiently manage tasks with a React-powered Todo app, providing a user-friendly interface for streamlined organization and productivity. React's dynamic components enhance the user experience, making task management seamless and intuitive.

FIFA FEVER CUP MANAGEMENT TOOL | LEAD DEVELOPER

Sept 2023 – Oct 2023 | Firebase, Python

Designed and implemented a Python-powered web application management tool for the FIFA Fever Cup esports tournament, enhancing efficiency and real-time coordination during the departmental fest. Streamlined tournament logistics and provided a user-friendly interface for easy administration.
